Adogbeji Ibori

Web Developer

👤 Profile

I'm a self-driven and focused CSE student who has been programming on and off since the age of 11. I have independently studied web development and computer science in general for a long time, and I have also taken relevant coursework. I have very little practical experience under my belt, so I am eager to develop my skills on the job.

💼 Employment History

Lead Programmer at Consense, Irvine

February 2021 — March 2022

Lead a team in the development of a web app for a startup in the New Venture Competition. Leveraged React libraries for Bluetooth communication between the web app and a proprietary device mounted to bicycles and for GPS navigation--approx 15 hr/week.

🎓 Education

High School Diploma, Saint John's School, Houston

September 2017 — May 2021

Graduated with Honors and the Excellence in Computer Science award.

Computer Science and Engineering, University of California, Irvine, Irvine

September 2021 — May 2025

Currently a Sophomore CSE major.

✅ Courses

Introduction to Java, Saint John's School

Programming Data Structures (Honors), Saint John's School

ICS 31-33, University of California Irvine

👥 Internships

Intern at Strohmeyer Law PLLC, Houston

June 2020 — August 2020

Worked remotely as an intern in a fast-paced environment. Updated HTML and CSS on the company website. Worked with a team of other interns—approx 15 hr/week.

🌱 Extra-curricular activities

Project Leader at Summer Express, Houston

March 2019 — March 2021

Was chosen from a number of applicants to lead a summer camp for refugee children. Led large group activities where I walked the children through basic programming using the language Scratch.
